

IQ CONTROL

Intelligent control system for a healthy and energy-efficient indoor climate. Connects wirelessly to your HERU® air handling unit. User friendly 4.3" touch panel in color.

*Will be launched in late 2018,
along with the new generation
of HERU IQ Air Handling Units.*

IQ CONTROL

TECHNICAL INFORMATION

- **LAN** - Modbus via TCP/IP for easy integration of the unit into a parent system.
- **EXTENDED OPERATION** - digital drive that allows extended operation via external control.
- **PRE HEATER** - Enables easy installation of our preheating kit for easy control via the display.
